Color Available :	

Description:

The AB-52 PP Safety Helmet is a high-impact industrial head protection helmet manufactured from polypropylene (PP) material, offering excellent impact resistance, durability, and lightweight comfort. Designed with a V-Type shell profile, the helmet enhances anti-static performance against the head while providing reliable protection in demanding work environments. The helmet is equipped with side accessory slots for easy attachment of face shields and hearing protection devices.

Features:

- ★ High impact resistance polypropylene shell
- ★ V-type design improves anti-static performance
- ★ Lightweight and comfortable for long working hours
- ★ Side slots for face shield and hearing protection attachment
- ★ Integrated rain guard for outdoor use
- ★ 4-point adjustable suspension ensures secure fit
- ★ Suitable for a wide range of industrial applications

Applications:

- ★ Construction and infrastructure projects
- ★ Industrial plants and manufacturing units
- ★ Oil & gas and utilities
- ★ Maintenance and repair works
- ★ Warehousing and logistics
- ★ Outdoor work environments
