Filter Scale Number	UL 1.2

Description:

The FC48T Face Shield Visor is a premium-quality polycarbonate protective visor designed to offer reliable impact resistance, clarity, and facial coverage for industrial, laboratory, and general safety applications. Built to meet major global safety standards, it provides excellent optical performance and durability while ensuring user comfort and reliable protection.

Features:

- ★High-Impact Polycarbonate Construction
Ensures excellent durability, impact resistance, and long-term reliability.
- ★Crystal-Clear Visibility
Clear visor provides superior optical clarity, suitable for precision tasks.
- ★Wide Coverage Area
Designed to protect the face from flying particles, splashes, and debris.
- ★Universal Helmet/Headgear Compatibility
Can be installed on most standard face shield frames and headgear systems.
- ★Certified Protection
Meets European, American, Canadian, and Australian safety standards.
- ★Lightweight & Comfortable
Ensures reduced fatigue during long periods of use.

Applications:

- ★Industrial maintenance
- ★Laboratory & chemical handling
- ★Grinding and cutting operations
- ★Construction works
- ★General face protection tasks
- ★Manufacturing & fabrication
