FLASH LIGHT ALUMINIUM LED XK-205

Technical Specifications:

Product Type	LED Flash Light
Model	XK-205
Body Material	Aluminium Alloy
Light Source	High-brightness LED
Color	Black / Silver
Switch Type	Push button
Design	Handheld, compact

Description:

The XK-205 Aluminium LED Flash Light is a compact, durable, and high-performance lighting tool designed for industrial, commercial, and emergency use.
Constructed from high-grade aluminium alloy, the flashlight offers excellent impact resistance, efficient heat dissipation, and long service life. Its powerful LED provides bright, focused illumination, making it suitable for demanding environments.

Features:

★Durable aluminium alloy body
★Bright LED with low power consumption
★Compact and easy to carry
★Long service life LED
★Reliable performance in harsh conditions
*Ideal for emergency and daily use

Applications:

★Industrial and construction sites
★Emergency and rescue use
★Security and patrol
★Automotive and maintenance work
★Outdoor and camping activities
★Home and office emergency kits
