2049226

## PRODUCT DATA SHEET

### Technical Specifications:

**Material:** Water-repellent cowhide split leather

**Design:** Winged thumb with elasticated back

**Lining:** 100% cotton fleece

**Color:** Gold hide leather

**Compliance:** Meets EN 388-03 Mechanical Hazards standard

### Description:

The Honeywell Drivers Softhydro Gloves 2049226 are premium-quality, water-repellent cowhide split leather gloves designed for heavy-duty tasks, especially in damp environments. Their ergonomic design and durable materials make them ideal for various industrial applications. Conform to CE EN420.

### Features:

- ★Water Repellency: The cowhide split leather is treated to resist water, ensuring durability and performance in damp conditions.
- ★High Abrasion Resistance: Offers excellent protection against wear and tear, extending the glove's lifespan.
- ★Ergonomic Design: The winged thumb design enhances comfort and dexterity, reducing hand fatigue during prolonged use.
- ★Secure Fit: An elasticated wrist band ensures a snug and secure fit, preventing debris from entering the glove.
- ★Comfortable Lining: The 100% cotton fleece liner provides added comfort, making it suitable for extended wear.

### Applications:

- ★General Handling: Suitable for tasks requiring robust hand protection.
- ★Driving/Logistics/Warehousing: Ideal for professionals in transportation and storage sectors.
- ★Forestry and Agriculture: Provides protection against rough materials and outdoor elements.
- ★Rigging: Suitable for handling heavy equipment and materials.
