Description:

The Immersion Suit XTBFBK-11 is designed to provide protection and buoyancy in cold water immersion situations, such as maritime emergencies.

Features:

- Constructed from durable, waterproof materials
- ★ Insulated to provide thermal protection in cold water
- ★ Buoyant material ensures flotation in water
- ★ Equipped with reflective tape for enhanced visibility
- ★ Comes with integrated hood and gloves for head and hand protection
- ★ Adjustable straps for a secure fit
- ★ Complies with SOLAS (Safety of Life at Sea) regulations

Applications:

- ★ Suitable for use by maritime professionals, offshore workers, and passengers on vessels
- ★ Recommended for use in cold water environments

Safety Precautions:

- ★ Ensure proper fitting and adjustment of the suit before use
- ★ Inspect the suit's integrity before each use
- ★ Train personnel on proper donning and use of the suit
- ★ Use in conjunction with other safety equipment as appropriate
