

MECHANICAL NYLON GLOVES FULL NITRILE COATED

KX43

PRODUCT DATA SHEET

Technical Specifications:

Liner Material	Nylon with U3 Comfort Knit Technology
Coating Material	Double Nitrile – Full Coverage + Palm Nitrile Foam
Grip Performance	Excellent – Dry, Wet & Light Oil Environments
Cuff Type	Elastic Knit Wrist – Dust & Debris Resistant
Brand	Steif
Size	8, 9, 10

Description:

The **STEIF KX43** Mechanical Gloves are designed for heavy-duty handling and mechanical tasks, combining nylon liner flexibility with double nitrile coating durability. Featuring a special U3 knitted technology, these gloves deliver breathability, comfort, and high abrasion resistance. The innovative metallic nitrile foam palm provides a secure grip even in oily or wet conditions, while reducing stress and fatigue in high-tension zones of the hand.

Features:

- ★ Full Nitrile Coating – Chemical, oil, and abrasion resistance
- ★ Metallic Foam Palm Grip – Enhanced grip performance
- ★ U3 Knitted Liner – Exceptional comfort and ventilation
- ★ Reduced Hand Fatigue – Ergonomic zones relieve stress during long use
- ★ Durable & Flexible – Ideal for extended use in tough environments
- ★ Seamless Fit – For precision work without discomfort

Applications:

- ★ Automotive & Mechanical Maintenance
- ★ General Industrial Handling
- ★ Construction & Material Assembly
- ★ Machinery Operation
- ★ Warehouse & Packaging Logistics
- ★ Oil-Resistant Environments
