## Description:

The Reflective Vest 4242 is a high-visibility safety vest designed for workers requiring enhanced visibility in day and low-light environments. Built with a combination of solid and mesh fabrics, it provides durability, breathability, and comfort. The vest features multiple pockets for practical storage and a black D-ring on the chest for securing ID cards, tools, or accessories.

## Features:

- ★ High Visibility — Two reflective tape lines ensure visibility in low-light conditions.
- ★ Breathable Mesh Panel — Middle mesh fabric keeps the wearer cool during long work hours.
- ★ Durable Solid Fabric — 120g solid fabric provides strength and longevity.
- ★ Multiple Storage Pockets — Includes 1 chest pocket and 2 bottom pockets for tools or accessories.
- ★ Integrated D-Ring — Black D-ring on chest for attaching ID badges or small equipment.
- ★ Lightweight & Comfortable — Designed for all-day use without restricting movement.
- ★ Universal Fit — Available in multiple sizes suitable for various industries.

## Applications:

- ★ Construction & road work
- ★ Warehouse & logistics
- ★ Traffic control
- ★ Event management & security
- ★ Utilities & maintenance
- ★ Industrial work environments
- ★ Outdoor night operations
