

# RIANCY BUMP CAP – SAFETY BUMP CAP

## PRODUCT DATA SHEET

### Technical Specifications:

Product Type:	Safety Bump Cap
Brand:	Riancy
Material:	HDPE Shell
Certification:	CE
Ventilation:	Yes
CBM:	50 × 36 × 21 cm
Weight:	Lightweight design
Protection Level:	Basic impact protection
Color available	Blue, Brown, Olive Green, Black Grey, Green, Orange, White, Yellow & Red

### Description:

The Riancy Safety Bump Cap is a lightweight head protection solution designed to guard against minor bumps and scrapes in low-risk work environments. Constructed with a durable HDPE shell and integrated ventilation holes, it provides enhanced comfort during long working hours. Ideal for confined spaces and horizontal work conditions, the bump cap offers reliable basic head protection without the bulk of a traditional hard hat. Its low-profile design ensures ease of movement and improved wearer comfort.

### Features:

- ★Ventilated Design: Air holes provide comfort during extended wear
- ★HDPE Protective Shell: Durable and lightweight construction
- ★Low-Profile Fit: Ideal for confined spaces and horizontal work
- ★Comfortable for Long Use: Lightweight and ergonomic
- ★No Chin Strap Required: Secure fit for typical applications
- ★CE Certified: Meets recognized safety requirements

### Applications:

- ★Maintenance work
- ★Warehousing and logistics
- ★Automotive workshops
- ★Confined space operations
- ★Assembly lines
- ★General industrial environments with low impact risk
