# SF-4-2W FLASH LIGHT RECHARGEABLE

## Technical Specifications:

| Product Type | Rechargeable LED Flash Light |
|---|---|
| Model | SF-4-2W |
| Light Power | 2 Watt LED |
| Body Material | High-impact plastic |
| Color | Black |
| Switch Type | Push button |
| Design | Handheld |
| Charging Type | Plug-in |

## Description:

The SF-4-2W Rechargeable Flash Light is a compact and energy-efficient lighting solution designed for industrial, emergency, and everyday use.

Powered by a built-in rechargeable battery and equipped with a 2W high-brightness LED, this flashlight provides strong illumination, long operating time, and reliable performance while reducing the need for disposable batteries.

## Features:

* Rechargeable design – no disposable batteries needed
* Powerful 2W LED for clear illumination
* Energy-efficient and eco-friendly
* Compact and easy to handle
* Reliable performance during power outages
* Ideal for frequent daily use

## Applications:

* Emergency lighting and power failures
* Industrial and maintenance work
* Security and patrol
* Automotive and workshop use
* Home and office emergency kits
