

BIG BELL CORDED EARPLUG

PRODUCT DATA SHEET

Technical Specifications:

Product Name	STEIF Big Bell Corded Earplug
Type	Disposable Foam Earplug (Corded)
Material	Polyurethane (PU) Foam
Design	Big Bell Shape
Standard:	CE 2777, EN 352-2:2002
SNR:	35dB
Cord Type	PVC

Description:

The STEIF Big Bell Corded Earplug is designed to provide high-performance noise reduction in demanding work environments. Made from soft, slow-recovery polyurethane foam, these disposable earplugs gently expand inside the ear canal to create a secure, comfortable, and reliable noise-reducing seal. The big bell contoured shape ensures easy insertion and a snug fit that resists slipping during movement. The attached cord enhances convenience by preventing loss and allowing temporary removal when needed.

Features:

- ★ High-level noise reduction
- ★ Contoured big bell shape for secure fit
- ★ Soft slow-recovery foam for pressure-free comfort
- ★ Corded design prevents loss
- ★ Easy insertion and removal
- ★ Hygienic single-use convenience

Applications:

- ★ Construction sites
- ★ Heavy manufacturing
- ★ Welding and fabrication
- ★ Chemical plants
- ★ Mining operations
- ★ Automotive industry
- ★ Agriculture and industrial workplaces
