

# STEIF BIG BELL EARPLUGS

## PRODUCT DATA SHEET

### Technical Specifications:

Product Name	STEIF Big Bell Earplugs
Model	EC-1005A
Type	Disposable Foam Earplug
Material	Polyurethane (PU)
Standard:	CE 2777, EN 352-2:2002
SNR:	35dB
Design	Contoured Big Bell Shape

### Description:

The STEIF Big Bell Earplugs are designed to deliver superior noise-blocking performance in a convenient single-use format. Manufactured from soft, slow-recovery polyurethane foam, these earplugs gently expand to conform to the ear canal, ensuring a comfortable and secure fit throughout the workday without pressure at sensitive points. The unique contoured bell-shape design allows easy insertion while helping prevent slipping or backing out during movement. Ideal for use in high-noise industrial environments.

### Features:

- ★ High-level noise reduction – SNR 35 dB
- ★ Contoured bell-shape for secure fit
- ★ Easy insertion and removal
- ★ Soft slow-recovery foam for all-day comfort
- ★ Hygienic single-use disposable design
- ★ Resists slipping during physical work

### Applications:

- ★ Construction sites
- ★ Defense sector
- ★ Chemical industry
- ★ Automotive industry
- ★ Welding operations
- ★ Agriculture
- ★ General industrial workplaces
