

STEIF BELL SHAPE SILICONE EARPLUG – REUSABLE (CORDED)

PRODUCT DATA SHEET

Technical Specifications:

Model:	EC-2003-C
Material:	Soft Silicone
Cord Material:	Blue PVC Cord
Type:	Reusable, Coded
SNR :	26 dB
Standard:	CE EN 352-2
CE Marking:	CE 2056

Description:

The STEIF EC-2003-C is a reusable bell-shaped silicone earplug designed to provide reliable and comfortable hearing protection in noisy environments. Manufactured from soft, flexible silicone material and fitted with a durable blue PVC cord, these earplugs ensure convenience, hygiene, and consistent noise reduction for daily industrial use.

The ergonomic bell-shaped design offers a secure fit while maintaining comfort during extended wear.

Features:

- ★ Soft, Flexible Silicone Material – Provides long-lasting comfort and durability
- ★ Reusable Design – Washable and suitable for repeated use
- ★ Bell-Shaped Structure – Ensures secure and comfortable fit inside the ear canal
- ★ Attached Blue PVC Cord – Allows easy handling and convenient around-the-neck use
- ★ Transparent Storage Case – Supplied with a plastic case for hygienic storage
- ★ Effective Noise Reduction – Reduces noise levels up to 26 dB

Applications:

- ★ Construction sites
- ★ Manufacturing plants
- ★ Maintenance operations
- ★ Workshops
- ★ General industrial environments
- ★ Moderate noise workplaces
