

STEIF Cap Mounted Earmuff Saturn S5

PRODUCT DATA SHEET

Technical Specifications:

Model:	EM 5007 E
Product Type:	Helmet Mounted Earmuff
Series:	Saturn S5
Mounting:	Helmet slot attachment
SNR :	30 dB, H=34dB, M=27dB, L= 21 dB
Standard:	CE EN 352-3
Construction:	High-impact ear cups with soft sealing cushions

Description:

The STEIF Cap Mounted Earmuff Saturn S5 (EM 5007 E) is a comfortable and practical helmet-mounted hearing protection solution designed to effectively isolate harmful industrial noise. Built for durability and user comfort, it easily attaches to compatible safety helmets, making it ideal for environments where head protection is required. STEIF earmuffs are recognized as a cost-effective hearing protection tool and are available in multiple models to suit various industrial applications.

Features:

- ★ Comfortable Fit – Designed for extended wear without pressure discomfort
- ★ Excellent Noise Isolation – Provides reliable protection in noisy workplaces
- ★ Helmet Mounted Design – Direct attachment to compatible safety helmets
- ★ Cost-Effective Protection – Economical solution for industrial hearing safety
- ★ Durable Construction – Suitable for demanding work environments
- ★ Adjustable Ear Cups – Ensures proper seal and positioning
- ★ Flip-Up Function – Earmuffs can be parked when not in use

Applications:

- ★ Construction sites
- ★ Manufacturing industries
- ★ Mining operations
- ★ Heavy engineering
- ★ Maintenance and workshops
- ★ General industrial environments
