Product Name	Fire Escape Mask
Exhalation Resistance	<300Pa
Inhalation Resistance	<800Pa
Protective Time	60 minutes
Protection Coverage	Head, Eyes, Ears, Nose, Neck
Application	Fire Escape, Smoke Protection

Description:

The STEIF Fire Escape Mask is a high-performance safety device designed to protect individuals from smoke, heat, and harmful gases during fire emergencies. It provides 60 minutes of respiratory protection, ensuring safe evacuation in hazardous conditions. The mask is designed to cover the head, eyes, ears, nose, and neck, preventing exposure to toxic fumes and heat.

Features:

- ★ **60-Minute Protection** – Provides sufficient time for evacuation.
- ★ **Full-Face Coverage** – Protects the head, eyes, nose, ears, and neck from heat and smoke.
- ★ **Low Breathing Resistance** – Ensures easy inhalation and exhalation.
- ★ **Effective Against Toxic Gases** – Helps filter smoke and harmful substances.
- ★ **Ergonomic Design** – Lightweight and easy to wear.

Applications:

- ★ **Office & Commercial Buildings** – Emergency fire escape protection.
- ★ **Factories & Industrial Areas** – Protection against smoke and toxic gases.
- ★ **Hotels & High-Rise Buildings** – Essential safety gear for occupants.
- ★ **Hospitals & Public Spaces** – Ensures safe evacuation in emergencies.

Usage Instructions:

- ★ **Open the Package** – Remove the fire escape mask.
- ★ **Put on the Mask** – Adjust it over your head, covering your face securely.
- ★ **Tighten the Straps** – Ensure a snug fit to prevent smoke from entering.
- ★ **Evacuate Safely** – Follow emergency exits and move away from fire hazards.
